

# GDPR Compliance Assessments

Get Compliant!

Our compliance assessments cover a wide variety of IT solutions, helping to ensure that you are ready for the deadline.

**“The implications of the General Data Protection Regulation (GDPR) for businesses is significant. The considerable cross-business challenges they represent and how best to address them needs to be actioned by not just security and compliance professionals, but also functional managers in sales, marketing, HR and customer service.”**  
**British Standards Institute, 2017**

Microsoft  
Azure™

Veritas  
Enterprise Vault™

Our in-depth compliance assessments cover a wide variety of IT applications from on-premises solutions to shadow IT, in addition to the security posture of any Office 365™ environment through a detailed analysis of unstructured data, user access, as well as data health and classification types.

Whether an IT organization is leveraging Office 365™, running a Veritas™ solution, or some other legacy application, Bluesource can assess the present level of security and provide a comprehensive report on the steps needed to become, as well as remain, compliant.

### **Non-compliance costs**

**\$20 Million**

The most serious violations for organizations failing to meet GDPR could result in fines of up to \$20 million or 4 percent of turnover
